Driver's Information Form

If you are coordinating transport for anyone to get to KCO (e.g. car pool) and asking others to assist in providing that transport, then you need to give potential drivers a Driver's Information Form to complete (including yourself). Forms are available from the Qld Synod Safe Ministry with Children web site: https://ucaqld.com.au/wp-content/uploads/2017/01/Driver-information-form_form.pdf

This form is to be used to collect relevant information about people and vehicles transporting participants on behalf of the church, after approval by the church council, to and from specific activities or programs. Before any person can provide transport for children, an appropriate screening process must be undertaken and documented (see Selecting leaders and helpers).

Please Note: Completed driver's declaration forms remain with your local church's designated Safe Ministry with Children coordinator. The driver's declaration form does not apply to parents taking their own children or any private arrangements made between parents and friends.

Driver's Declaration Form

If you are coordinating transport for anyone to get to KCO (e.g. a bus or car pool) and asking others to assist in providing that transport, then you need to give potential drivers a Driver's Declaration Form to complete (including yourself). Forms are available from the [KCO website](#). As part of completing this form, drivers will need to provide their current UC Ref ID (obtained by completing the Uniting Church Screening and Authority process)

Please Note: Completed driver's declaration forms remain with your local church's designated Duty of Care liaison person. The driver's declaration form does not apply to parents taking their own children or any private arrangements made between parents and friends.

Buses

Groups bringing buses must alert the KCO Event Office through the Group Registration Form (which can be found at sa.uca.org.au/documents/kco/KCOForm-GroupRegistration.pdf) which asks Group Coordinators to indicate whether a bus is being used and what time it is expected to arrive at the KCO site. This allows for the arrangement of a suitable parking space for the bus.
